UNIOTP

IT IS NOT AN OPTION TO WAIT FOR SOMETHING TO HAPPEN,
THINK SECURE, GET UNIOTP.

The information age that we live in is strife with issues surrounding confidentiality, integrity and availability. A silent war is been waged between information security experts and hackers and the only way you can be assured protection is with the latest tools at your disposal. Recent studies show that global costs attributed to cybercrime is in excess of 1 trillion US dollars and will require an average of 14 days to repair the damage caused by a security breach, this does not include the chronic damage done to a companies reputation.

By using UniOTP you can stay ahead of attackers and protect yourself from the dangers that plague the information industry in a way that is consistent, reliable and proven to work. Your customers, clients and partners will know that you have taken the best possible measures to ensure the safety of yourself and their interests. It is not an option to wait for something to happen, think secure, get UniOTP.

UNIOTP

Features

Highly reliable and durable

Tamper-Resistant ABS engineering plastic case

Easy integration

 **Compliant with OATH Standard**

- Unique token serial number
- Wide variety of authenticators
 - SecuTech provides different types of OTP product, including time-based, event-based and challenge/response-based authenticators, to meet customers' requirements.
- Scratch resistance screen cover
- Portable design, convenient to take anywhere
- OEM service – fit customers' needs
 - Logo customization
 - Appearance customization

Technical Specifications

Dimensions (L*W*H): 63*23*9 (mm) (at highest point)

Weight: 15 grams

Materials: Engineering Plastic

Default Color: Navy Blue and Black

Battery Lifetime: 3 years

Display: Liquid Crystal (LCD)

Server Support: UniOTP Authentication System V1.0

Operating Temperature: -10 °C - 50 °C

Warranty: Lifetime Warranty

Product Safety Standards: CE, RoHS

Regulatory Standards: FCC

Customization Available: Company Logo / Casing Style / Color

UniOTP® 300

UniOTP® 300 is an event-based authenticator. It generates a new one-time password when is pressed the button on the device. Each password will be displayed on the LCD screen for 60 seconds.

UniOTP® 500

UniOTP® 500 is a time-based authenticator. With an accurate clock inside, it automatically generates and displays a new password every 60 seconds. The hardware device is synchronized with authentication server timely.

UniOTP® 700

UniOTP® 700 is a challenge/response-based authenticator which offers the added security of PIN protection and challenge response. Compared to the regular one-time password, the UniOTP 700 dynamically generates a one-time password after the user inputs their username and static password, along with a verification code generated by the server.

About SecuTech

SecuTech Solutions Inc. is a company specializing in data protection and strong authentication, providing total customer satisfaction in security systems & services for banks, financial institutions & other industries. Having extensive and in-depth experience within the information security market, SecuTech has drawn upon this experience to utilize today's cutting-edge technologies, enables enterprises, financial institutions, and government to safely adopt the economic benefits of mobile and cloud computing that are effective against increasingly sophisticated cyber attacks.
